PASS TO HAVE NEXT ELKS' PROVINCIAL CONVENTION

Pass delegates from Coleman and Blairmore Elk lodges, together with patrol teams from both lodges, returned on Wednesday from the annual convention of the Alberta Elks' Association held in Calgary Monday and Tuesday.

During the sessions Premier Manning addressed the gathering, and the annual patrol team competition was held for Roy Pendray shield. Only two patrols were entered this year, from Blairmore, holders of the shield, and one from Coleman lodge. After witnessing two smart patrols demonstrate, the judges announced the competition a tie, each lodge to hold the shield for six months.

Harry Pelle, grand exalted ruler, of Vancouver, attended the convention sessions and installed the new officers, headed by S. T. Vickerman, of Calgary, the new president.

Next year's convention will be held here in the Pass, with Coleman and Blairmore lodges combining to take care of arrangements.

BOLD PROPOSALS FOR REPLANNING THE CITY OF LONDON

Bold steps are to be taken in rebuilding the City of London. The reconstruction plan was presented to the Court of Common Council—the City-Corporation's chief committee—recently in the form of a final report from consultants appointed by the City Fathers. They are two of Britain's most noted town planning experts—Dr. Holden and Professor Halford who have been working on the problem during the last two years. The scheme envisages nothing less than complete reconstruction of that important square mile in the heart of Britain's capital which "lies on the trade routes of the world". Two of the boldest proposals in the report are the reconstruction of Mansion House, the historic home of London's Lord Mayor—an on entirely new site, and the bodily removal of one of the City's famous Wren churches by at least 60 feet. Another interesting feature is the proposed national memorial near St. Paul's Cathedral with precincts around Wren's masterpiece widened to their original dimensions, and ceremonial approaches leading from Ludgate Hill and the River Thames.

In Hurting Form

The largest chunk of credit for the Purty win must go, however, to the battery—Joe Kanik and Walt Weaver. In blugging up his third win without a loss, Kanik took a lot of starch out of the jaunty Edmonton club. He struck out 11 men—10 of them in the first five innings—and made the Elks look like Monkeys in the ninth when he caught two men off first base with snap throws. Weaver's signal naturally earned him a share of the praise. Kanik, a Blairmore product, is what you call a ball player's ball player. Besides being one of the league's ace pitchers, he can hit, can play the outfield and is no slouch at third base. If Joe had his way he'd be playing in every Purty game. —Calgary Herald.

HILLCREST HAPPENINGS

Mr. and Mrs. J. Hyslop Sr., of Vancouver, were visitors here a week ago, guests of their son and daughter-in-law, Mr. and Mrs. J. Hyslop Jr.

Mr. Adam Pollock is back at work at the Mohawk mine, after an absence of six weeks, due to injuries received while at work.

Miss Peggy MacPherson, of Edmonton, is a guest here with her brother-in-law; and sister, Mr. and Mrs. Ken Thornton.

The Women's Association held their regular monthly meeting last week at the home of Mrs. R. Clarke. After the business was disposed of, a dainty luncheon was served by the hostess. It was decided that this was to be the last meeting until fall.

Calgary visitors last week were Mr. and Mrs. A. Bain Jr. Also Mr. and Mrs. George Thornton who were guests of their son-in-law and daughter, Mr. and Mrs. A. Berington. Mr. Sammy Civitarese has volunteered for a course at the Western School of Barbering, in Calgary.

TWO MINE INSPECTORS SERVE DRUMHELLER

Robert Shaw of Blairmore has been transferred to Drumheller as mines inspector, working in conjunction with Inspector George Horne. Previously Mr. Horne had served the district alone.

Extension of the Drumheller Mining Inspectorate, now includes Ardley and Castor.

POSTHUMOUS AWARD TO BLAIRMORE FLIER

Word received last week by Mrs. T. Allen of Blairmore that her son, Warrant Officer First Class Thomas William Allen, has been posthumously awarded the R.C.A.F. Operational Wings for gallant service in action against the enemy. He was reported missing in 1944 after taking part in a raid over Holland; in 1946 he was presumed killed in action.

Surviving are his parents, Mr. and Mrs. T. G. Allen of Blairmore, and a brother, Douglas, who also served with the R.C.A.F.

R.C.M.P. PROMOTIONS

Word of promotions for several members of the Royal Canadian Mounted Police serving in the Lethbridge subdivision has been received in the city. Sgt. E. E. Buchanan of Lethbridge has been promoted to staff sergeant, while the following constables have been promoted to the rank of corporal: J. C. Parsons, Pincher Creek; J. L. Wilson, Foremost; J. J. Hurst, Vulcan. The promotions are effective June 1st.

LIVING ROUTINES

Anti-social customs and practices which make healthful living difficult for those who try to follow proper living routines, are deplored by Canadian health leaders. As an instance, they point to the situation which arises when young children are allowed to play outside until late hours—preventing other youngsters from getting much-needed rest.

Declaring that many of man's worst habits—such as late hours—are cemented in time-honored custom, the health authorities agree that better times won't come until the public approves and practices healthful living routines.

Mr. and Mrs. R. Morgan have as their guest, Mrs. Morgan's aunt, Mrs. Swamy, of St. Thomas, Ont.

There will be no trap shooting by the local club for a while, owing to inability to secure a supply of clay pigeons.

AN OLD TIMER PASSES

The death occurred at 2 o'clock this morning at the local hospital of Joseph Filippini, one of the real old timers of the Pass.

Deceased had reached the advanced age of 84 years, and had first come to the district in 1902, when the Pass was in its infancy. Born in Italy, he returned to his native land, to return to the Pass where the family was brought up.

Left to mourn his loss are four married daughters: Mrs. N. Nicifore, Mrs. A. Orlando and Mrs. T. Ambrosi, all of Blairmore, and Mrs. J. Arcuri, Kelowna, BC and their families. His wife predeceased him some 25 years ago in Blairmore.

As we go to press funeral arrangements have not been completed, and we expect will be held on Sunday.

FUNERAL OF MRS. R. G. FOOTE

Funeral services for Doris Ethel, wife of Mr. R. G. Foote, of Bellevue, who passed away in hospital at Medicine Hat on June 3, after three months of illness and to where she had recently been conveyed in hope the lower altitude would be of benefit, took place from Parson's Funeral Parlor in Medicine Hat on June 6, with Rev. W. H. Irwin, of Bellevue, conducting. Interment was made at Medicine Hat.

Mrs. Foote was in her 46th year and the eldest daughter of Mr. and Mrs. S. L. Knappman, who came to Blairmore over 25 years ago where they brought up the family. Of a quiet disposition, she was well known and loved by her many friends in the district.

She is survived by her husband; one son, Bobby, 13; her parents, S. L. Knappman, Blairmore and Mrs. Knappman at Bellingham, Wash.; one brother and three sisters, Fred, Mrs. J. Giarda (Louise) and Elsie, Bellingham, and Mrs. L. Pozzi (Lillian), Medicine Hat, all of whom were present for the funeral.

Floral tributes were many and spoke of the esteem in which the deceased was held. Friends of the family from outside points attending the funeral included, Mrs. L. A. Campbell, Calgary, girlhood friend of Mrs. Foote; Dr. H. B. Horst, formerly of Blairmore and now of Calgary, who acted as a pallbearer; Mrs. E. J. Pozzi and her daughter, Mrs. C. Fazio, Blairmore. Another Pass resident now resident of the Hat, Alwyn Hayson, was another pallbearer.

Mrs. Foote, who is recuperating in a Calgary hospital from a serious accident several weeks ago, has returned to Calgary and Bobby will remain for the present time with Mr. and Mrs. Pozzi in Medicine Hat.

Mr. and Mrs. Leslie Emmerson and family leave Saturday by car to spend a two week vacation at Vancouver. They will be accompanied by Mr. Emmerson's parents, Mr. and Mrs. J. Emmerson, of Coleman.

E. C. Cosstick and Mrs. Cosstick, formerly of Bellevue, have returned to the Pass and have taken up residence in Blairmore. They have been residing in Calgary the past six years where Ted was connected with the paymaster's corps of Military District 13, retiring with the rank of Major. He has resumed duties with the West Canadian office staff.

An interesting visitor to the Pass this week and a caller on The Graphic was Bill Burns, of Nelson, reg. beard and all. It is a number of years since the Burns family resided in Blairmore, when H. Burns was connected with McLaren Lumber Co., before making their home in Nelson eleven years ago. Bill is boasting Nelson's Golden Jubilee, August 3—9 1947, guaranteeing lots of entertainment, and midget car racing as a feature.

COWLEY HAPPENINGS

Considerable improvement work was made on the Pincher Creek Co-operative buildings here last week.

The residence that Arthur Tustian recently purchased of L. A. Feller is now undergoing extensive repairing.

Mr. and Mrs. William Walls and their two children, Gregory and Maureen, of Fort Smith, arrived on Friday night's train for a holiday visit at the parental home of Mr. and Mrs. T. E. Murphy.

A baseball game between Cowley and Macleod teams was played at Macleod on Sunday afternoon ending in a score of 11-9 in favor of Cowley.

Mr. and Mrs. Peter Iwasiak and their small daughter Michelle were Calgary visitors the latter part of the week.

Mrs. J. Fournier entertained at tea on Tuesday afternoon, the event being her birthday.

Mr. and Mrs. W. E. Bent left on Friday night's train for an extended visit with their daughter and son-in-law, Mr. and Mrs. E. Whitcombe at Penticton, BC.

Mrs. George Dwyer has returned from a two week visit to Calgary where she took treatments from a specialist and now is feeling considerably improved in health.

Mr. and Mrs. J. R. Wood of Cranbrook, BC, are paying a visit this week to their married daughters and their families here namely, Mrs. Arthur Tustian, Mrs. Eddie Smyth and Mrs. Stanley Snyder.

Mr. and Mrs. Raymond Cleland of Pincher Creek spent the week end visiting at the home of Mr. and Mrs. A. E. Cleland.

Harry Guna was a week end visitor to Calgary.

In the last twenty-four hours, one and one-half inches of rain fell over this district, giving the ground a thorough soaking. This rain insures plenty of moisture for pasture lands and field crops for the present. The Spring has been backward and cool; what we want now is warmer weather to stimulate rapid growth.

Returning from a month's visit with friends in Pincher Creek, Mrs. Jean Littleton will spend several days visiting friends here before returning to Mr. and Mrs. Billie Ritten's, old friends at Lundbreck, where she has made her headquarters since breaking up her home following the death of her husband. Mrs. Littleton will set sail for New Zealand on July 4 where she will make her future home with her sister. She will have been waiting four months to get a passage to make the journey.

A quiet wedding took place on Saturday morning at eleven o'clock in the United church manse in Bellevue when Mary, elder daughter of Mr. and Mrs. Archie McKay of Lundbreck, exchanged marriage vows with Mr. Paul Poch also of Lundbreck with Rev. Mr. W. H. Irwin officiating. Mr. and Mrs. Ervin Feller, sister and brother-in-law of the bride, acted as bridesmaid and best man. The reception which was held at the home of the bride's parents, was attended by immediate relatives. The happy couple will take up residence on the groom's ranch a few miles north of Lundbreck.

Three-year-old Kennedy Neumann of Twin Butte is a patient in St. Vincent's hospital, Pincher Creek, suffering the effects of a broken leg. The accident happened on Sunday morning June 9, when the child was riding a horse on his father's ranch when the animal took fright and shied, lodging the leg from his back and flinging him, causing two breaks between the knee and ankle. The injured leg will be in a plaster cast for at least a month. The child's mother was formerly Sylvia Murphy who grew up here.

The Ladies Aid of the United church, the Women's Auxiliary of St. Aiden's

GOLF NEWS

On Sunday, June 8th, the Blairmore Golf and Country Club were hosts to golfers from Fernie. About thirty golfers made the trip, and enjoyed a full day of golf.

Two ball foursomes were played in the morning, and eighteen holes of match played in the afternoon. The local golfers are looking forward to a return trip after the Crows' Nest Pass tournament is over.

Y. P. A. FIRST SUMMER GATHERING—BIG SUCCESS

Well, 50 young folk cannot all be wrong!!! and that seems to be what everyone was chattering about.

The members of the Y.P.A. and their guests met at the United Church where the transportation was waiting—then to Coleman to be joined by the Coleman Fireside Group, and on to the Crows' Nest Lake.

Everything got started with a lengthy game of hardball, then the eats; where many a wiener disappeared, surrounded by a bun and smothered in mustard with lots of coffee and soft drinks to wash them down. This was followed by a short program of singing and a good measure of dancing.

Everyone is wondering why Emmett Murphy started taking tap dancing lessons, and why the impersonator of Al Jolson didn't do his stuff.

The IODE whist drive, held last evening, was well attended. Prizes were won by: 1st, Mrs. R. Perry, donated by Blairmore Exchange; 2nd, Mrs. Mackie, donated by Variety Shop. Mystery box was won by Mrs. G. Brown sr., donated by Crows' Nest Bottling Works.

Anglican church and the Altar Society of St. Joseph's Roman Catholic church joined forces when a tea was held in the Masonic hall here on Saturday afternoon, June 7, for the purpose of raising funds to clean up the Cowley cemetery and to look after neglected graves. The belt of trees surrounding the plot will receive attention also and a new survey of the lots will be made. This event was largely attended. The tea room took on a festive air, resplendent in the rich hues of bouquets of garden flowers. People were lavish in making donations. Sidelines were a fish pond and a pantry table which also did a roaring business. The angel cake drawn for was won by Mrs. Rutledge. A handsome sum was realized for this most worthy cause.

A one-way Tiltle match, the first ever held in the province, took place here on Saturday, June 7. This event was sponsored by a group of local farmers interested in soil conservation and assisted by the Agricultural Service Board. Tracy Anderson, agricultural engineer of the Lethbridge Experimental Station, did the judging and led the discussions. W. R. Hanson, district agriculturalist, and Eugene O'Neill assisted the local committee. There were six contestants. Two stable dirks north of elevator at Cowley were divided into blocks, containing about an hour's work each. Each contestant was allotted one of these blocks which he finished up following under the general rules. This modern contest was quite a contrast to the old plowing matches of the horse and buggy days. Prizes were awarded to Michael Elton first and Bobby Day second. Following the judging of the competition, demonstrations were made on how to set a one-way, its uses in conserving soil and the advantage of using the blade winder. Time would not permit all the demonstrations to be made which were slated. This contest drew a large crowd of interested onlookers who benefited in what they saw and heard.

An Asset To The West

THE POSSIBILITY OF FINDING new and diversified uses for farm products has always been a great interest to agriculturists as well as to scientists and manufacturers. During the depression there were great surpluses of wheat and other cereal grains, the discovery of new industrial uses for these products would have been welcomed and might have been of great benefit to farmers in this country. At the present time, however, there is such a serious world shortage of wheat and other cereal grains that no surplus exists. Furthermore it is now realized that if there is to be an adequate standard of nutrition throughout the world, such surpluses as accumulated during the depression years will never occur again.

Cereal Straw Might Be Used

Apart from cereal grains, however, there are numerous agricultural products which may be processed for use in industry. At the new Prairie Regional Laboratory of the National Research Council, which is now being constructed at Saskatoon, scientific investigations into industrial uses for farm products, as well as extensive research in cereal chemistry will be carried on. Dr. R. K. Larmour, the director of the new laboratory, in a recent address stated that one matter to be investigated is the possible industrial uses of cereal straw. The director pointed out that approximately 10,000,000 tons of straw is wasted in Canada each year. From this amount of straw 3,000,000 tons of cellulose could be extracted, an amount almost equal to the entire annual output of pulp in the Dominion.

Among Projects To Be Started

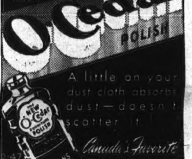

It was not suggested that straw could take the place of the pulpwood industry, but Dr. Larmour was of the opinion that it could be used for straw board, and for insulation purposes, provided an economical system could be devised for collecting the straw. Research into the production of vegetable oils, and fermentation processes which would produce high-priced substances will be among the many projects which will be undertaken when the laboratory is opened this fall. It is now expected that 34 scientists and 30 technicians will be employed in research work there, and there will be facilities to accommodate another 30 workers in the future. This laboratory will be an asset to the Western provinces and the scientists who work there will have an opportunity to contribute to the development and prosperity of that important section of the country.

BUYS BACK OWN STOLEN ARTICLE

ALHAMBRA, Cal. — The sheriff's office heard this story from the proprietor of an appliance store. A motor was stolen from a washing machine, presumably while every one was out for coffee. Later two men entered the store and offered a motor for \$15. It seemed a good buy and was purchased. The proprietor found the motor was the one stolen earlier. The two men had disappeared.

FUNNY And

OTHERWISE

A truck supervisor received the following memo from his foreman: "I'm sending in accident report about Casey's foot, which he struck with spike nail. Now, under 'Remarks', do you want mine or Casey's?"

Wife: "I think married men should wear something to show they're married." Husband: "I do—this shiny suit."

Advertising a local farm for sale, the Vermont Development Commission stated: "If purchased before the next heavy windstorm, a barn is included."

Wife (inspecting new home): "How many closets are there, dear?" Husband: "Five counted five." "That isn't enough. You'll want one for your things, won't you?"

Fastidious Customer (faced with Lease-Lend bacon): "But I always like to see my bacon lean." Assistant: "Certainly, madam. Backwards or forwards?"

"Say, Jim, you work at a cinema, how about getting me a couple of tickets?" "Sure, Joe. You work at a bank, how about getting me a couple of banknotes?"

He Knew Her The young wife greeted her husband affectionately when he returned from the office. "Poor darling!" she said. "You must be tired and hungry. Would you like some nice soup, followed by nice tender chops with golden-brown potatoes and green peas, and then mushrooms on toast?" "No, darling," her husband answered firmly; "let's save the money and eat at home."

Al: "There's a fellow over there who's really going places." Fat: "Ambitious, is he?" Al: "No, his wife's out of town."

"I have a terrible toothache and want something to cure it." "Now, you don't need any medicine. I had a toothache yesterday and my loving wife kissed me and so consoled me that the pain soon passed away. Why don't you try the same?" "It's a good idea. In your wife at home now?"

Teacher: "What did the Prince do to wake the Sleeping Beauty?" Mary: "I don't know." Teacher: "Now what does Mother give you when you wake in the morning?" Mary: "A spoonful of cod-liver oil."

Her: "I am surprised that our wedding is not mentioned in this calendar." She: "Why should it be?" Her: "It gives the dates of all the great disasters."

Her: "A pastry cook and a poet have asked me to marry them and I don't know which to accept." She: "Well, as far as I can see it's a question of marrying for batter or for verse."

MINUS BAGGAGE — Minus baggage, this millard bag, seen with Jean Bachelor, waddled into a downtown hotel in Toronto. Grounded by the rainstorm, the young duck taken care of until the Humane Society came for it.

To Build \$15,000,000 Celanese Plant In B.C.

PRINCE RUPERT, B.C. — Construction of a \$15,000,000 celanese mill of the Port Edward Cellulose Co. on Watson Island, near Prince Rupert, B.C., is expected to be under way within the next two months. George Schneider of New York, vice-president and managing director of the Celanese Corporation of America, the parent company, announced.

The plant, expected to be in operation within two years, will have a 250-ton daily capacity with possible expansion to 400 tons, and will give employment to several hundred persons—a total of some 1,000 in plant and bush operations. It will specialize in cellulose to be shipped to the United States and used in the manufacture of yarns and fabrics.

Gives Reasons Why Parcels Cost So Much

Hon. Ernest Bertrand (postmaster-general): On a 20-pound gift parcel, which is the maximum allowed for such a parcel, the (postal) rate to England is \$2.50, made up as follows: England gets a credit of 51 cents on each of these parcels which the British postal authorities deliver anywhere in England. We have to pay them that 51 cents. The shipping companies charge us \$1.50 per two cubic feet, which is about the space a gift parcel of 20 pounds takes up. Those two charges amount to \$2.01, leaving 48 cents remuneration to the Canadian Post Office for picking up the parcel anywhere in Canada—Vancouver if necessary—and delivering it to the shipping companies. We are losing money on every such parcel.—From Hansard.

Meteorite Hits Earth In Siberia

LONDON. — A meteorite weighing about 1,000 tons collided with the earth February 12, according to the first report of the Soviet scientific expedition which recently went to Siberia to investigate the phenomenon, Moscow radio reported.

The meteorite, with a speed of about 90 miles a second, caused heavy damage when it fell, as well as an air wave recorded as far away as the Pacific Coast.

More than 800 splinters, some of which penetrated deep into the earth, have been found.

SHOPLIFTER PUSHED HIS LUCK TOO FAR

HOLLIDAYSBURG, Pa. — James M. Butler thought he had an original shop-lifting scheme but it wasn't good enough. Butler entered two stores and lifted a luncheon set, an electric iron and sweater with a total value of \$20. Later, he returned to the stores and tried to get a refund, claiming he had bought the goods and was dissatisfied. The ruse worked the first time. The second time store clerks became suspicious and called police.

GEMS OF THOUGHT

PERSONAL PRAISE Praise, like gold and diamonds, owes its value only to its scarcity. It becomes cheap as it becomes vulgar, and will no longer raise expectation or animate enterprise. — Samuel Johnson.

As the Greek said, many men know how to flatter; few know to praise. — Wendell Phillips.

It is difficult to say which may be most mischievous to the human heart, the praise or the dispraise of men. — Mary Baker Eddy.

It takes a great deal of grace to be able to bear praise. Censure seldom does us much hurt. — Spurgeon.

Britain Hopes To Buy Soviet Grain

LONDON. — Britain hopes to place "substantial orders" for Russian wheat as a result of negotiations now taking place between Britain and Russia, it was disclosed.

Harold Wilson, Britain's secretary for overseas trade and leader of the recent British trade delegation to Russia, told the House of Commons that starting next year the Soviet Union plans a considerable disposable surplus of foodstuffs, particularly wheat and coarse grains.

"The placing of such orders would, of course, help in reducing our dollar expenditure," an authoritative spokesman said.

It was true, he said, the Russians have had extreme difficulties with their wheat, but their forthcoming harvest is said to be an extremely good one.

A THOROUGH JOB

When a Japanese woman launders a kimono, she rips the seams apart, washes the pieces and stretches them on a board to dry. After drying, the kimono is put together again.

MEXICO HAS SENSIBLE IDEA ABOUT FORESTS

Mexico has taken a long step forward in the saving of dwindling forests by requiring lumbermen to plant ten trees for every one cut and by limiting exports of fine woods. Some other countries already are almost too late for such a move. Let us hope Canada is not in the latter category.

Queen Elizabeth, in 1872, received the first wrist watch ever made.

Doctor Warns Against Punching The Body

Better avoid getting punched in the nose—or any other part of the body—warns Dr. Joseph V. Klauder of Wills Hospital, Philadelphia. Dr. Klauder says body and facial blows may awaken a latent disease in the body. He cited numerous cases in which blows to parts of the body brought on diseases.

Headaches?

TAKE KRUSCHEN

Don't you know people who never have headaches? The fact that some of us are free from them shows that there must be a reason why you get them. Very often the cause of headaches is found in faulty elimination. Poisons waste substances accumulate in the system and the result is headache and depressed feelings. And that's your cue to try Kruschen.

Start tomorrow morning with a small dose of Kruschen in your tea, coffee, hot water or fruit juice. Your organs of elimination will soon respond and your body will gradually experience a cleansing from those poisons waste. Kruschen is helping the kidneys, bowels, several glands to feel better of back together. Let Kruschen help you. At all drug stores and health food stores.

KRUSCHEN
Helps keep you up to the mark!

DIONNE QUINTS AT TEEN AGE ARE SMART, BUT NOT SPORTSMINDED

CALLANDER, Ont.—They're nearly dressed but not clothes conscious—that's the Dionne quintuplets in a nutshell as they celebrated their 13th birthday at their palatial home near here on May 28.

As the healthy sisters excitedly opened their gifts they bore little resemblance to the rickett-ridden infants born in a humble northland farm home across the road on a sunny May morning in 1934, when Annette, Cecile, Marie, Yvonne and Emilie defied medical science because they lived.

The sisters appear more serious-minded than most girls at their age and school work and music are their chief interests. Mr. Dionne has one worry—the quints can't swim because they have never had the opportunity to learn. He's considering construction of a private swimming pool on his farm estate.

The quints like to be neat and clean but have no great desire for fancy clothes. As the nuns put it the girls "have not much vanity."

The girls have completed their sixth grade in school and in June, 1948, they will write high-school entrance examinations. Rev. Sister Alma de Angles, in charge of their education, gave the quints a holiday from school to admire watches and necklaces from their mother and father, among other gifts.

All five girls have a keen appreciation of music and are becoming accomplished pianists. They sing and dance exceptionally well and don't seem to mind an audience.

As to their futures, Mr. Dionne doesn't think they've given much thought to the matter "but there is one thing I would like to make quite clear and that is neither Mrs. Dionne or I are going to dictate to them about their future."

For a time the nuns feared the quints might reason "as a block" but instead each has developed an individual personality. They think differently and react differently.

Cecile has the most initiative. She is beginning to realize she is a "little lady" and is anxious to make a good impression.

Yvonne is the most industrious—a hard-working girl who takes "great pains" with her studies.

Marie, always the smallest, is still "the youngest in character but she is very sweet."

Emilie, most boyish of the five for a long time, is just the opposite now. She is the "most feminine." She's "blenderizing and is quite aware of this physical change."

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get out Dad's Kidney Pills. Dad's help the kidneys so that you can rest better—and feel better.

THE TILLERS

Many Canadians Would Emigrate to N.Z.

AUCKLAND, N.Z.—David Wilson, retiring New Zealand high commissioner to Canada, said on his return to Auckland that if New Zealand wanted Canadian immigrants and shipping were available, "there's no doubt large numbers would come."

Wilson said that during three years in Canada he had addressed hundreds of meetings and there were always two or three dozen enquiring about the possibility of emigrating to New Zealand.

He said he had explained he had not gone to Canada "as an emissary to promote emigration from a sister dominion."

Canada had done a wonderful job during the war with the Commonwealth Air Training Plan, he said. Great as was Canada's industrial effort during the war, the training accomplished was even greater.

MOSQUITOES PREFER DARK CLOTHES

SEATTLE—Biting tastes of the mosquito were tested by U.S. Department of Agriculture entomologists, with human victims purposely wearing different colored clothing.

The experimenters found that people who wear dark suits or dresses—black, blue or red—experienced more bites than those wearing lighter hues.

A CHALLENGING OPPORTUNITY

Next week the Canadian Red Cross Society places a new and vital appeal before the citizens of Alberta. The appeal—not for money—is for voluntary blood donors, people who are willing to give their blood to help every hospital patient in Alberta who needs transfusion therapy because of accident, illness or other medical reasons, may have it free of any charge.

Most of us are familiar with Canada's wartime blood donor program to supply the blood plasma which saved the lives of countless wounded Canadians. During the war years, the people of Alberta established an outstanding record in this field of activity which was the envy of many provinces.

A survey of Canadian hospitals, including those in Alberta, emphasized

the post-war need for the same kind of service—a service that will benefit all of us. It is up to us to do our part so that we may share with others the knowledge that our willingness to volunteer our blood will mean many lives saved.

War-time research in the new uses of human blood and its derivatives has brought about outstanding medical advances. Human blood and plasma have been used with great effectiveness in the treatment of those injured or burned.

The Canadian Red Cross has undertaken to provide peace-time Blood Transfusion Service. With foresight and community spirit the Blaimore Red Cross Branch has accepted the responsibility of undertaking the registration of our citizens as voluntary donors.

This newspaper goes on record as standing wholeheartedly behind the Red Cross Blood Transfusion Service as a challenging opportunity for the citizens of this community to take an active and essential part in a great humanitarian effort.

Register next week (June 15-21) with the Canadian Red Cross as a voluntary blood donor and help save lives.

Our pioneering days aren't over. Our greatest discovery is still to be made—how to get along together.

DOMINION DAY

The Dominion of Canada was officially formed on July 1st, 1867. Suggestions have been made in Parliament that the designation of July 1st should be changed to "Canada Day."

It would seem that the more important question is what we do with it. How we celebrate. To a great many, July 1st marks the beginning of the Summer holiday season, the exit from city streets to summer cottages. To others, it is a great day for play—baseball, golf, racing, tennis picnics, and other forms of sporting events.

To the Fathers of Confederation it was the mark of a great dream come true. It was the birth of a nation. It commemorated a political union of the northern half of a continent.

This year, no matter how we celebrate, should we not pause at some significant moment to say to ourselves, "We have a great inheritance, we will strive to keep it strong in honor of our forefathers, and for our children and our children's children."

LIME IN KETTLES

Lime deposits in any cooking utensil can be removed by boiling strong vinegar water in it, or water to which cream of tartar has been added—one teaspoon per quart of water.

NEED FOR VEGETABLES

While useful in combination with such nutritious foods as milk, tomatoes and cheese, macaroni and spaghetti are not adequate substitutes for vegetables, warn rational health nutritionists.

Canadian housewives, in order to ensure sufficient essential vitamins and minerals in the family diet, should supplement them with real vegetables. Macaroni and spaghetti are given approval mainly as "calorie boosters."

TAKE INVENTORY

If a "stitch in time saves nine" in mending, a physical check-up today can save one from real sickness later on, insist the doctors.

Health authorities emphasize that sickness doesn't come suddenly, unannounced. It gives fair warning. Thus, those twinges and headaches one may experience, any signs to beware. They are the cue to see the doctor, so that the meaning of these pains may be interpreted properly, and early steps taken to avert dangers which they portend.

SIMPLY DELICIOUS!
The Superb flavor of Maxwell House makes it the most popular of all brands of coffee. It has extra flavor because it contains choice Latin-American coffees.

THE 1947 Special Allowance of SUGAR FOR CANNING will be 10 LBS. PER PERSON

As in previous years this special allowance of sugar for canning will be in addition to the regular sugar ration. It will be made available in two amounts of 5 pounds each.

THESE ARE THE COUPONS TO PROVIDE THE EXTRA SUGAR

VALID MAY 15th

Coupons Y1, Y2, Y3, Y4, Y5.

VALID JULY 17th

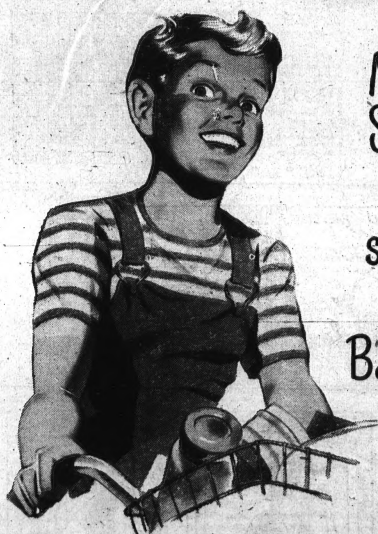

Coupons Y6, Y7, Y8, Y9, Y10.

Coupons may be used as desired after their respective validity dates, and will remain valid until at least December 31st, 1947.

Each coupon is good for the purchase of 1 pound of sugar.

The world sugar situation has been improving and has made possible the recent increases in the Canadian allowance. World supplies, however, are still inadequate to meet demand, requiring continued rationing.

A MOTHER may die unless You give blood

Of all Canadian women who die in childbirth, every fourth mother dies of hemorrhage. Three-quarters of these mothers can be saved... with but a small gift from you.

A great new civilian Blood Transfusion Service has been opened by the Canadian Red Cross. This Service will supply hospital patients across Canada with whole blood and plasma... FREE... not even a Hospital Service charge, to be used for life-saving transfusions.

Volunteer donors are urgently needed to build up the blood bank. After you register you will be asked to donate blood only two or three times a year. And each time you donate, you help save someone's life and restore that person to friends and loved ones.

Contact your local Red Cross Branch or Clinic and tell them—"Yes, please enroll me as a blood donor. I want to give blood to save someone's life!"

DONORS URGENTLY NEEDED

Give blood that others may live
CANADIAN RED CROSS

POINT PELEE NATIONAL PARK

Point Pelee National Park, situated in the County of Essex, Ontario, is unique in being the most southerly mainland point in Canada. It is in almost the same latitude as the northern boundary of the State of California.

Located within an hour's drive of such great industrial centres as Windsor and Detroit, it provides a summer playground for thousands. The entrance to the park has a delightful setting. Wild flowers grow in great profusion and vegetation is luxuriant. The park lies within one of the main routes followed by waterfowl and other birds on their northern and southern migrations and is one of the most important bird sanctuaries in Eastern Canada.

From a recreational point of view, the park offers many advantages. The entire point, jutting out into Lake Erie, is bordered by a white sand beach extending for miles. Favored with cool breezes the hottest day is always comfortable at Point Pelee. The temperate waters of Lake Erie and silver sands of the shore combine to make it a popular bathing resort.

Selected camping sites have been laid out in grooves of trees along the western side of the park, and, equipped with shelters, camp-stoves, benches, fire-wood and wells, are available to visitors.

Mosquitoes, have been in the past objectionable to campers in this area. But here is welcome new! Mosquito control will be resumed at Point Pelee during the coming season. It is hoped that such control will add to the comfort of campers and other visitors, and permit the better use of the recreational and camping facilities within the park.

In addition to being a favorite camping area for visitors, Point Pelee is being utilized by many youth organizations. Several of these are using the park to do one of Canada's most important jobs—the training of her young citizens. The fact that Point Pelee is also a bird sanctuary gives the youth an opportunity to observe the many interesting species that are found there. By studying wild life in its natural surroundings, members of

these different groups acquire a better understanding of wildlife conservation.

According to the National Park Bureau, the number of visitors camping in the park has increased considerably. Although Point Pelee is one of the smallest national parks in Canada, covering an area of only six square miles, it was last year to more than 57,000 persons, an increase of approximately 27,000 over the previous year. Its proximity to large centres of population in southwestern Ontario and the northern United States add to the park's importance as a convenient recreational area. Beneath its shady trees and along its sandy beaches, tired business men, office and factory workers, and indeed whole families seek escape from the hustle and bustle of modern city life. There they rest and play in an atmosphere that is an once an inspiration and tonic to the nerves.

Hotel and bungalow accommodation in Canada's National Parks is still

rather limited and it is possible that this situation may continue for some time. It may even be aggravated to some extent by the large influx of visitors to the national parks expected during the 1947 summer season. Improvements to camping grounds in these parks have therefore been carried out for the benefit of those visitors who are unable to make hotel reservations, and the larger group who ordinarily prefer a holiday under canvas.

YOU NEVER CAN TELL

Columnist Don Rose, who teaches a writing class once a week at Columbia University, New York, took a taxi down from downtown Manhattan to Morningside Heights the other afternoon. After a few blocks of studying the back of the driver's neck and his photograph displayed on the license card, Don decided the fellow was the toughest looking customer he had ever seen in his life. The guy's

constant, loud comments concerning motorists and pedestrians who impeded his progress added to Rose's impression. The more he thought about it the more uneasy he grew. When the cab stopped suddenly at

96th St. and West End Ave., and the driver climbed out piggrigly, slaming the door, Don Rose wondered what new trouble was brewing. But all the caddy did was rush to the curb and he's an elderly blind man

across the street. Then he climbed back in the taxi, giving Rose that tough, murderous look.—Don Fairbairn in Philadelphia Bulletin.

Every day in every way people are praising CHEVROLET

IT is any wonder that the demand for the 1947 Chevrolet far exceeds production. Each day's mail brings us letters from every part of the Dominion—letters that tell a stirring story of the deep and abiding satisfaction lucky owners are deriving from their new Chevrolets. Individually the letters praise a remarkable variety of Chevrolet features. Collectively they all add up to one impressive truth—only Chevrolet offers Big-Car Quality at Low Cost.

The growing demand for the new Chevrolet is setting an all-time record. We cannot hope for many months to fill all the orders pouring in. If you are among the many who have set your sights on Chevrolet's Big Car Quality at Low Cost, we suggest that while you wait, you rely on your Chevrolet Dealer's service to keep your present car running smoothly and safely.

Chevrolet
A PRODUCT OF GENERAL MOTORS

Crows' Nest Pass Motors
Phone 105 Blairmore

Testimonials:

- "Most of my driving is through heavy traffic and maneuvering into small parking spaces. Therefore, I am very much impressed with the ease of handling made possible by the 'steering wheel gear shift. With a flick of the finger I am able to shift from one speed to another."
C. W. Topley, Montreal, P.Q.
- "Of course the motor is much more powerful than my preceding Chevrolet and we have had four one each in 1939, 1940, 1941, and 1942—but what appeals to us most is the ease of riding."
We have made over 25,000 miles, or, in other words, 120 miles per day."
E. L. Galt, Waterville, P.Q.
- "It is the opinion of both myself and wife that one of the most superior qualities of our 1947 Chevrolet Stylemaster is the ease of handling. We do not hesitate to endorse it as a most valuable family car."
J. E. Simpson, Winnipeg, Man.
- "In all my years of driving, I have never been so satisfied with a car as I am with this one. The smooth way it pulls, every the ease of handling, the steady sureness of the brakes, combined with the big car appearance of the Fisher body, convinces me that I have again received full value in my Chevrolet."
John H. Jardine, Toronto, Ontario
- "Have just finished a 3600 mile trip from Toronto to New York to Regina in my new 1947 Chevrolet Coach. I like the get-a-way and believe me, Chevrolet is literally 'cut in front' when it comes to acceleration."
Harry Bell, Regina, Sask.
- "The unexcelled riding quality and the ease of control plus the effortless vacuum shift convinces me that Chevrolet is tops in performance."
K. C. Burroughs, Swift Current, Sask.
- "I kept a careful check on oil gasoline used which was by means of a credit card and was amazed to find on final check that my Chevrolet averaged 24 miles to the gallon. This mileage included going over the Lepellet Pass which takes in Glacier House, Idaho, U.S.A."
Horton Thompson, Vancouver, B.C.
- "Chevrolet's brakes are outstanding. You get only perfect stops every time with Chevrolet."
Mr. M. Cunningham, Red Deer, Alta.
- "As the Chevrolet is in the 'low-priced field, I expected low-priced riding enjoyment, but in my pleasure, I found all the advantages for which high-priced cars are noted. This is especially true on rough roads, where the Chevrolet gives you perfect control when it hits ruts, potholes or washboards."
A. G. Holmes, Lethbridge, Alta.
- "I am a traveller . . . and cover many thousands of miles a year over the worst of Alberta's bad roads. With my new 1947 Chevrolet I get unbelievable comfort in driving, and vice versa—formerly lasted an eternity are now a pleasure."
J. H. Budd, Edmonton, Alta.
- "This being my fourth Chevrolet purchased from you, I feel that after driving nearly 5,000 miles in this car, I am in a position to say that the efficiency and comfort of operation has more than exceeded my expectations."
W. J. Bell, Toronto, Ontario
- "I am so pleased with my new Chevrolet I could write a book on it. . . . Chevrolet's new 90 H.P. overhead valve motor gives the greatest performance of any car in its price class on the road."
C. Earl Piper, Fort William, Ontario

World News In Pictures

GOLD COAST BAND'S COMMAND PERFORMANCE—Gold Coast police band from South Africa is in England on tour and will play at Buckingham palace in June. Here, Salifu Konkomba of band beats big drum.

TO LECTURE IN U.S.—Orphie Orr of Maple has accepted an invitation from the 4-H-Club, state leader, C. H. Hartley of State Camp, Weston, West Virginia, to spend five or six weeks lecturing to two clubs and to several older groups in the state, starting June 20. The club work is in connection with the agricultural extension department of West Virginia. Her talks will be based on her experience in Ontario junior farmers' work and she will explain the organization and principles of junior farmer clubs.

TRAWLERS TRAPPED OFF LANCASHIRE COAST—Held fast and listing noticeably, three trawlers are seen aground in this striking picture. Trapped trawlers are stuck on the Wyre lighthouse banks at Fleetwood, Lancashire, off the coast of England. From left to right, the vessels shown here are: the Agnes Wickfield, the Edward Wainley and the Lizzie Melling.

SUPERFORTS OVER NEW YORK—A number of the 301 Superfortresses that flew over New York city are shown passing above an Empire State building tower. Leader of the flight, Gen. George C. Kenney, said the demonstration proved how far the U.S. air force has been reduced from wartime peak. He said that the city was "No. 1 target" in the picture.

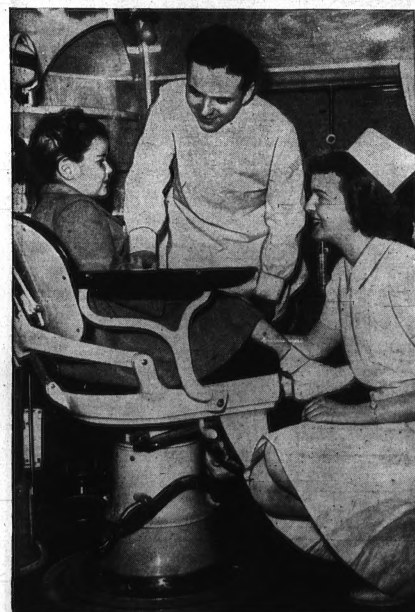

MOVING DAY FOR DRY DOCK—Too big to pass through the Suez canal in one piece, Britain's largest floating dock was cut in halves to go from Bombay to Malta. One half is seen here.

BRIDES FLEE FIRE—Brides of a year, Mrs. Arthur Gagne, (left), formerly of Toronto, and Mrs. George Maxey, Toronto, lost all their clothing except their night attire when they fled from the blazing dormitory of the Imperial Iron Corp at St. Catharines recently. They went to the plant when their husbands started work as cooks at the new dormitories. Mr. Maxey held a wet handkerchief over his nose, crawled back into the burning building to save their purses.

PENSION AT 55 FOR SPINSTERS DEMANDED BY BRITISH—Hundreds of spinsters from many parts of Great Britain gathered in Trafalgar Square to demand pensions for single women at 55. Later they marched on No. 10 Downing St. to deliver a copy of their resolution to Prime Minister Attlee.

MOBILE DENTAL TRAILER TO TRAVEL NORTHERN ONTARIO—Mobile dentistry in auto trailer, operated by Red Cross, soon will be traveling the back roads of Northern Ontario bringing dental aid to hundreds of children. Sharon Kerrigan, four, tries out the chair while Dr. M. W. Buchanan and Nurse Pat Jones watch.

STUDENT WINS—Winner of the T. T. Beattie medal at the Ontario College of Optometry, Murray Bauer, 23, is seen with his wife, Pat. Bauer was valedictorian for the class of 14 which graduated recently. His home is in Humboldt, Sask.

STEVE SAYS SHE STOLE \$2,500 FROM HIM—Brought to court by her prospective husband to answer a charge of theft of about \$2,500 from him during their courtship, Joan Gaynor is seen here.

BEGGING OFF "NO PARKING" TICKET—Cowboy Jack Andrews pleads with Policeman Ed Winterhalter to please have a heart and not to present him with a "no parking" ticket that the officer started writing. It all started when Andrews brought his Brahmin bull from the rodeo, which is appearing in Pittsburgh, Pa., to visit Mayor Lawrence at city hall. After the visit, the bull, a trifle weary, sat down to rest right under a "no parking" sign. The police officer gave the cowboy a warning not to bring his bull in the "no parking" area again.

A REAL TEST OF FRIENDSHIP—Spring time in New York brought out the ice cream man, and little Mary Margaret Blacksher was so happy to get out into the warm sunshine that she was more than willing to share her ice cream with a passing Great Dane, Top, the dog leans over the carriage with a woeeful "give me a lick" look. Below, Mary is ready to oblige.

OUR COMPLETE SHORT STORY—

THE GAMBLE

By EMMIE PORTER

The afternoon sun dappled the hospital walls and lent a cheerful note to the cot where the tall soldier lay.

"Hey, Nurse!" he called, his eyes gleaming. "I want plenty of solitude when my sweetie-pie calls this afternoon."

Miss Gordon shook her red head reprovingly. "You soldiers," she murmured, "always out to impress every girl."

"Every girl!" expostulated he of the blue eyes and hospital bed. "Why my dear nurse, I'll have you know that this very special young lady whom you will have the pleasure of seeing shortly is the exclusive recipient of all my mail for the last three months." Warning to his subject the G.I. raised himself to his elbow and peered earnestly into the face of Miss Gordon. "You are young and you are lovely, surely you do not mean to stand there and tell me that you don't believe in love?"

His eyes so earnestly gazing at her from his scowling face brought a smile to the full lips of the young nurse. She smoothed the sleeves of her uniform before answering. "Yes, I believe in love... that is, if it is something deep... something really special and lasting... something sacred..." her voice trailed away into silence as she gazed thoughtfully out the hospital window.

"Miss Gordon" his voice was low and husky. "Are you engaged or are you blushing a brick red, for something?" he finished lamely.

Her grey eyes looked straight into his blue ones. "I am not engaged," she stated. "Neither am I in love."

The boy lay back on the cot and closed his eyes. "Thank you nurse. That's what I wanted to know."

The puzzled nurse studied his face a moment, glanced at her watch and left the room.

As the visiting hour approached, the blue-eyed soldier grew more and more tense. Miss Gordon passing in and out on countless errands shook

her head in bewilderment. "Why" she mused to herself, "He actually looks as if he dreads seeing her."

At ten minutes past three the soldier's girl swept in—as regal as a queen, commanding and receiving homage from every masculine eye. Her black hair fell in cascades to her shoulders. Long sooty lashes hovered provocatively over her green eyes, and wild roses bloomed tantalizingly on each cheek. A large undulating solitary blink from the third finger of her left hand.

"Bob, oh Bob!" she exclaimed, "My dearest—my dearest, to have our first meeting here in a hospital... what a pity, what a shame! Oh how differently I had planned things!"

Bob grinned feebly. "Yeah, so had a lot of other fellows—especially the ones who don't come back."

She pursed her lips. "Can the serious, pal, I—"

"Virginia!" Bob interrupted, "I want to talk to you."

Virginia's eyes grew round with protest. "Now Bob, if that isn't just like you. The minute I get here you start lecturing me." Her eyes were cautious as she took compact and lipstick from her purse. Then over the rim of a ridiculous black lace fan she shrewdly studied him. "O.K. Bob, we never did mince words, did we? Shoot!"

Bob grimaced and "shot" straight from the shoulder. "Virginia I may sound brutal but I know you can take it. The fact is I'm a doomed man, I have contracted a tropical disease and besides that the wound on my leg has made me a cripple, for life. Now the question is—do you still want to marry me?"

She studied him from under lowered lids. "Bob, I never dreamed—never had any idea—why didn't you let me know something of this before?"

"Well!" Bob's face was carefully guarded—almost as carefully guarded as his voice. "I didn't want you to be getting yourself behind any wall of patriotism. I want you to think straight and without any furbelows. The reason I didn't get in touch with you sooner, I wanted to give it to you straight and first hand. His quizzical eyes held hers. "All right baby, what's the verdict?"

"Well," her emerald eyes were clouded, her glance fell to her lap. "It's not quite the same as if we had been seeing each other right along... after all, three years is a long time..." her voice trailed away into nothing and a breathless silence hovered over the hospital cot.

Bob's voice when it came was strong and reassuring. "Sure baby, sure, I understand. I guess you're trying to tell me that it will have to be good-bye."

She nodded but could not find the courage to look up. "Yes Bob, after all I'm young, and I'll have to think of my future." The lovely calculating eyes met his again for a fleeting second.

"Yes," he agreed wryly. "Yes you're young and what more you're beautiful—and now we'd better say good-bye."

"Oh Bob," contrition tensed her voice. "Wouldn't you like for me to come back to see you again perhaps?"

"No Virginia," he answered lightly. "Let's make it good-bye for keeps."

It's simpler that way."

He held out his hand in a gesture of farewell and after a hesitant look, Virginia turned and walked out without a backward look.

Bob sighed and closed his eyes.

The firm tap of rubber heels came nearer. Miss Gordon, hands on hips, surveyed him critically. "Of all the imaginative liars!" she burst out, "Of all the—the—the" she searched helplessly for words. "May I ask why you told your beautiful friend all the fairy tales, when you know as well as I, that you are walking out of here tomorrow, a completely well man?"

Bob swooped back the covers, stepped to the floor and put both arms around the starched white shoulders. "Because," he murmured, "I'm going to marry you, my friend, since the day I first saw you, I've wanted to kiss the dimple in your chin, and I'm going to do it right now, this very minute!"

Blames Housing Crisis For Child Desertion

NEW YORK.—Child-hating landlords and the worst housing shortage in the nation's history were blamed for an appalling increase in abandoned children, many of them babies only a few months old.

In New York City alone, during the first week of May, four babies, ranging in age from a few days to one month, were abandoned.

One, a 10-day-old baby, was left in the vestibule of a Brooklyn orphanage, another was abandoned in the lobby of a mid-town hotel, another at the entrance to Bellevue Hospital and the fourth on the steps of an East Side tenement.

Pinned to the blanket of one of the carefully dressed infants was a note reading:

"I am unable to give her the care or home she needs. She is a sweet and good baby. Please, won't you see that she has a good home where someone will love her as I do."

From metropolitan centres throughout the United States come reports of a wave of child abandonments.

Child welfare officials here and in Washington blame this unprecedented increase primarily on the housing shortage. In a score of instances, parents tracked down by the law, after abandoning their children, have blamed their inability to find a roof to shelter them as the primary cause of their wrong-doing.

A CLEVER CAT

Fluffy, a year-old cat owned by the Philip Petersen family in Chicago, knows only one trick—how to get into the Petersen home without disturbing any one. Fluffy climbs up the brick wall near the front door, opens the mailbox lid with her nose, and plunks herself in—just like a parcel. Then she leaps out of the mail box and down to the floor.

NAME MISLEADING

Camel-hair brushes are not made of camel's hair. They are so-called because they first were manufactured by a man named Camel.

Skyscraper To House U.N. Organization

NEW YORK.—A 40-story rectangular-shaped skyscraper will house the secretariat of the United Nations under the basic architectural design for the new world centre, it was disclosed.

U.N. planning officials said construction of the secretariat building along New York City's East river might begin as early as next December if plans are approved quickly.

The general architectural scheme for building the international capital was announced by Wallace K. Harrison, U.N. director of planning.

Harrison said the general plan will be refined by more detailed studies and incorporated into a report which will be considered by the General Assembly in September.

Demolition of existing structures on the site is expected to begin about July 1.

Harrison said the basic composition of the plan is not necessarily final and is, therefore, subject to revision and modification as the work of the planning staff progresses.

RECIPES

PICNIC CHICKEN SALAD

1 cup mayonnaise or salad dressing
1½ tablespoons lemon juice
1½ tablespoons dried pimiento if desired

1½ cups cooked chicken, cut in small pieces

1½ cups finely diced celery

Mix together mayonnaise, lemon juice, pimiento, and seasonings.

Add remaining ingredients and toss all together lightly. Let stand in cold place 10 or 15 minutes before serving.

Serve in lettuce cups. Garnish with tomato wedges. Makes 8 to 10 servings.

To cook rice, add ½ cup washed rice slowly to large amount of briskly boiling salted water in large saucepan. Lift or stir with fork frequently. Boil 20 minutes until tender. Drain in colander and rinse with cold water.

CHOCOLATE GRAPE-NUTS PUFF

4 tablespoons butter

½ cup sugar

2 egg yolks, well beaten

1 square Baker's Unsweetened Chocolate, melted

2 tablespoons Grape-Nuts

1 cup milk

2 egg whites, stiffly beaten

Cream butter; add sugar gradually, blending after each addition. Add egg yolks and beat thoroughly; then add melted chocolate and blend. Add four Grape-Nuts, and milk, mixing well.

Fold in egg whites. Turn into greased baking dish and place in pan of hot water. Bake in slow oven (325 degrees) 1 hour and 15 minutes. Serve cold with cream. Serves 6.

Suda Bay, on the north coast of Crete, is one of the most spacious natural harbors on the Mediterranean.

GERMAN SURGEONS HAVE BEST JOKE

FRANKFURT.—The latest joke making the rounds in Germany concerns a group of British, American and German surgeons who met to discuss the "miracles of wartime surgery."

"We had a man who lost a leg and we made him a new one which enabled him to set a record in the 100 metre dash," the British doctors reported.

"We did better than that," the Americans said. "We had a man who lost his right arm, but he is now our champion middleweight boxer with his new arm."

"You people are behind the times," the Germans said. "We took people who were beheaded in the concentration camps, put wooden heads on them and the Military Government set them up as officials to govern Germany."

Vanilla is the cured pod of one of the orchid family of plants.

Wern Canadians Travelling Overseas Of Being Left There

OTTAWA.—External Affairs Department officials warned Canadians planning to travel to Britain or Europe that unless they had a guarantee of return transportation they faced the prospect of being stranded until after next Christmas.

A spokesman said Canada House in London and other governmental authorities already were "besieged" by requests for aid from Canadians who found themselves without return passage and with their funds running low. Other "thousands" might find themselves in a similar situation, with no hope of getting back.

He said many parents of deceased servicemen were going overseas to visit war graves without making adequate preparations for their return.

Admiral Byrd found plants growing within 200 miles of the South Pole.

The Quality Tea

"SALUDA" ORANGE PEKOE

RICH, SPICY CINNAMON BUNS

Recipe

Dissolve 1 tsp. sugar in ½ c. lukewarm water; add 1 envelope Royal Fast Rising Dry Yeast. Let mixture stand 10 min. Then stir well. Scald ½ c. milk, add 3 lbs. shortening, ½ c. sugar, ½ tsp. salt; cool to lukewarm. Add 1 c. sifted flour to make a batter. Add yeast mixture and 1 beaten egg; beat well. Add 2½ c. sifted flour, or enough to make a soft dough. Knead lightly, place in greased bowl. Cover set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. When lightly punched down, roll out into oblong piece, about ¾" thick. Brush with 3 lbs. melted shortening or butter. Sprinkle with ¾ c. brown sugar, 1½ tps. cinnamon, ½ c. raisins. Roll up lengthwise in a tight roll; cut in 1" slices. Place cut-side up, 1" apart in greased shallow baking pan. Cover; let rise in warm place until light, about 1 hour. Bake in 425°F. oven about 20 minutes.

... "And Then There Were None"

Harold was just an old sheep-counter. Every night, before he got to sleep, he counted thousands of sheep...

Then one day an Experienced Friend suggested maybe it was the caffeine in the Tea and Coffee he drank that kept the sheep jumping over the fence...

So Harold STOPPED tea and coffee, and changed to POSTUM...

And right away he only got a few hundred sheep over the fence before sleep overcame him...

And in a few nights only a dozen...

And then there were none!

Any people can safely drink tea and coffee. But others are upset by the caffeine these beverages contain. If you find yourself sleepless, nervous, irritable—try changing to Postum. You'll like its rich, heart-warming flavor. Not like tea, not like coffee, just a grand flavor all its own.

Easy to fix—make Postum right in the cup just by adding boiling water or hot milk. Costs less than 1¢ a serving.

EVERYBODY'S BUSINESS

Is the man who keeps informed on current affairs more likely to succeed?

I believe so. Most of the men I know who hold important jobs are interested in market trends, soil erosion, labor issues, politics and other topics of general importance. They can talk fluently and intelligently about such matters and usually their opinions are definite and well thought out.

This is not a coincidence. Rather, I think, it is an indication of a quality of mind which "thinks big."

"But I'm not interested in politics. They don't concern me," you may say.

The truth is — they do concern you and everyone interested in preserving our democratic way of life. And other vital current issues have a similar bearing on your individual world.

Enlarging our interests in these ways is not only good citizenship; judging, by the examples of successful men, it also helps you get ahead.

Here is a fact which every Canadian should know: The combined investments in Life Insurance by over four million Canadians are an important factor in stabilizing the nation's economy.

PARTICULAR ABOUT coffee? Then try Maxwell House. It contains choice Latin-American coffees. Expert Blending combines them all in a superb Maxwell House blend that has extra flavor.

A Car in the hand is worth 2 in the mind

The demand for General Motors Cars continues far in advance of our ability to deliver. While General Motors dealers, and the factory are doing everything possible to get that new car for you, it may still be some time before all orders are filled.

In the meantime, let us keep your present car in the best possible condition. Our regular tune-up and inspection service will assure you safe, comfortable, worry-free driving while you wait for your new car.

Service on all makes of cars and trucks.
